Figure 1: Daily New Cases and Cumulative Percentage of Cases (January 53 to February 52).

The chart displays daily new cases (left Y-axis, 0-40) and the cumulative percentage of cases (right Y-axis, 0-180%). The X-axis represents time in days, from January 53 to February 52. The legend identifies the following data series:

- COVID19 (Grey bars)
- hMPV (Blue line)
- hCoV (Green line)
- hBoV (Orange line)
- hRv (Purple line)
- PIV (Light Blue line)
- RSV (Yellow line)
- ADV (Red line)
